In re Patent No. 7,678,813	:	DECISION ON REQUEST FOR
Clark et al.	:	RECONSIDERATION OF
Issue Date: March 16, 2010	:	PATENT TERM ADJUSTMENT
Application No. 10/596,998	:	AND
Filed: March 8, 2007	:	NOTICE OF INTENT TO ISSUE
Docket No. 019904-003010US	:	CERTIFICATE OF CORRECTION

This is a decision on the petition filed on January 12, 2010, which is being treated as a petition under 37 CFR 1.705(d) requesting that the patent term adjustment indicated on the above-identified patent be corrected to indicate that the term of the above-identified patent is extended or adjusted by at least three hundred fifty-eight (358) days.

The petition to correct the patent term adjustment indicated on the above-identified patent is **GRANTED to the extent indicated herein**. The term of the above-identified patent is extended or adjusted by **four hundred twenty (420) days**.

The Office agrees with patentee that the provisions of 35 U.S.C. 154(b) related to adjustment of patent term apply as this is an international application filed after May 29, 2000. Accordingly, the Office concurs that patentees are entitled to period of adjustment of 196 days, pursuant to 37 CFR 1.702(a)(1), for the mailing of the Restriction Requirement on November 20, 2008, 14 months and 196 days, after the fulfillment of the requirements of 35 U.S.C. 371 on March 8, 2007. A period

of adjustment for Office delay of 196 days will be entered. Accordingly, A delay is 196 days.

The Office also agree that patentee should have been assessed a delay of 25 days, pursuant to 37 CFR 1.704(b), for the filing of a reply on July 8, 2009, three months and 25 days after the mailing of the non-final Office action. A period of reduction of 25 days will be entered. Accordingly, applicant delay is 25 days.

Lastly, the Office concurs that patentee is entitled to a period of adjustment pursuant to 37 CFR 1.702(b). However, the calculation of delay pursuant to 37 CFR 1.702(b) is based on a national stage commencement date of July 10, 2006, not July 9, 2006. As the expiration of the 30-month period pursuant to 35 U.S.C. 371(b) fell on a Sunday, the period expired on the subsequent business day. See PCT Rule 80.5. Thus, the commencement date is Monday, July 10, 2006. The period of adjustment under 37 CFR 1.702(b) is 249 days, beginning on July 11, 2009, the day after the date that is three years after the date on which the national stage commenced under 35 U.S.C. 371(b) and ending on March 16, 2010, the date the patent issued. Accordingly, B delay is 249 days.

The patent term adjustment is 420 days (196 days of A delay + 249 days of B delay - 25 days of applicant delay).

The Office will *sua sponte* issue a certificate of correction. Pursuant to 37 CFR 1.322, the Office will not issue a certificate of correction without first providing assignee or patentee an opportunity to be heard. Accordingly, patentee is given **one (1) month or thirty (30) days**, whichever is longer, from the mail date of this decision to respond. No extensions of time will be granted under § 1.136.

The Office acknowledges the submission of the required fee of \$200.00 set forth in 37 CFR 1.18(e).

This matter is being referred to the Certificates of Correction Branch for issuance of a certificate of correction. The Office will issue a certificate of correction indicating that the term of the above-identified patent is extended or adjusted by **four hundred twenty (420) days**.

Telephone inquiries specific to this matter should be directed to the undersigned at (571) 272-3211.
